SUMMARY

Information Technology Engineer — Da Nang University of Science and Technology (The University of Da Nang) with 2+ years of hands-on experience developing and operating Web/App systems (ERP, CRM, E-commerce). Proven capability in performance optimization and agile troubleshooting in live Production environments. Possesses a solid foundation in Computer Networking (LAN/WAN, TCP/IP, VLAN, DNS, DHCP), Windows/Linux administration, troubleshooting, Information Security, and Database Management. Ready to take on complex technical challenges and proactively seek optimal solutions for businesses.

WORK EXPERIENCE

Full-Stack Developer

03/2024 – 10/2026

Lundi Matin Groupe (France) · Remote from Da Nang

- Developed and maintained enterprise ERP, CRM, and e-commerce systems for clients in France.
- Applied core technologies including PHP, JavaScript, AngularJS, Vue.js, Twig, HTML, CSS, and MySQL across Yii2, Symfony, WordPress, and Drupal frameworks.
- Built and integrated REST APIs, cron jobs, ESB2, connectors, MCP, and webhooks to connect internal systems with external third-party services.
- Contributed to projects and third-party platform integrations including Viva payment, Riashop, Yuto, EBP SaaS, Wimoov, Station-one, Axialease, Cogasa, Uppler, and Izberg.
- Identified and resolved production bugs in legacy codebases, ensuring stable and reliable system operations.
- Worked with GitHub, GitLab, and CI/CD pipelines under the Scrum process; participated in code reviews and pre-release QA with weekly progress reports.

`REST API` `Cron` `ESB2` `Connector` `MCP` `Webhook` `GitHub` `GitLab` `CI/CD` `Scrum`

Web Front-End

05/2023 – 07/2023

Tekup JSC · Da Nang, Vietnam

- Built responsive customer-facing websites using HTML, CSS, and JavaScript.
- Trained in ReactJS, jQuery, Tailwind CSS, and Bootstrap.
- Collaborated in a small team to plan, divide tasks, and deliver products on schedule.

`HTML` `CSS` `JavaScript` `ReactJS` `jQuery` `Tailwind CSS` `Bootstrap`

EDUCATION

Da Nang University of Science & Technology — The University of Da Nang

09/2020 – 09/2025

Information Technology Engineer — High-Quality Vietnamese–French Engineering Program (PFIEV)

Graduated with Distinction (Giỏi) | **GPA:** 8.39 / 10 | 303 credits, 10 semesters

Core IT Curriculum in the Training Program:

- Operating Systems, Computer Architecture, System & Linux Programming
- Computer Networks, Data Communications, Advanced & Mobile Networks, Network Design & QoS
- Network Security, Information Security, Cryptography & Encryption
- Databases, Advanced Databases, Data Structures & Data Mining
- Software Architecture, Distributed Systems & Service-Oriented Architecture (SOA)
- Information Systems and ERP
- Software Quality Assurance, Software Testing, Software Project Management

PROJECTS

FoodMart – AI-Integrated E-Commerce Platform — Full-stack Developer [Live Demo] [GitHub] 2023

- Built a React 18 SPA covering the complete shopping flow: product catalog, cart, checkout & payment, wishlist, and ratings/reviews.
- Integrated Gemini 1.5 Flash (Vision): upload ingredient/dish photos for AI recognition and recipe suggestions with ingredient checklists.
- Designed an API Resilience layer using the Circuit Breaker pattern (Closed/Open/Half-Open) combined with an Offline Mock Store to keep the system running during backend outages.
- Implemented Admin/Seller/Customer authorization via Protected Routes; automated order confirmation emails (EmailJS); wrote unit tests with Jest & React Testing Library.

`React 18` `Gemini AI` `React Router v6` `Axios` `Ant Design` `Circuit Breaker` `Jest` `EmailJS`

Ashion Vendor – E-Commerce Seller Management Platform — Full-stack Developer [Live Demo] [GitHub] 2023

- Developed an admin dashboard to manage products, orders, customers, inventory/warehousing, and finances.
- Implemented Role-Based Access Control (RBAC) across individual features and protected pages (ProtectedRoute).
- Integrated AI features: Visual Search by image and automated product image generation.
- Built a financial dashboard with Chart.js; supported instant Excel/PDF report exports and invoice printing.

`React 18` `Vite` `Chart.js` `jsPDF` `EmailJS` `RBAC` `Visual Search AI`

MysticTarot AI – Interactive Tarot Reading & AI Consultation — Full-stack Developer [Live Demo] [GitHub] 2024

- Built an interactive Tarot web app featuring all 78 cards (upright/reversed) and multiple spread layouts (1-Card, 3-Card, Celtic Cross...).
- Integrated Gemini AI to interpret readings across multiple tones (Empathetic, Direct, Mystical) with follow-up conversational chat with the AI Reader.
- Added a comprehensive Tarot encyclopedia and reading history persistence using Local Storage.

`Next.js` `React 19` `TypeScript` `Gemini API`

Network Quest – Gamified Networking Practice Platform — Full-stack Developer [Live Demo] [GitHub] 2024

- Built a Computer Networking practice web app (CCNA, Firewall/Packet filtering) featuring timed quizzes, progress bars, and detailed answer explanations.
- Developed an interactive minigame simulating firewall security rules (Firewall Simulation).
- Managed state and practice history with Zustand (LocalStorage); visualized score analytics with Recharts; wrote unit tests with Vitest.

`Recharts` `Next.js 16` `React 19` `TypeScript` `Zustand` `Vitest`

SKILLS

Web/App Development:	PHP · Java · JavaScript/TypeScript · AngularJS · Vue.js · C# · C/C++ · ReactJS · Next.js · jQuery · HTML5/CSS3 · Twig · Python
Frameworks & CMS:	Yii2 · Symfony · Laravel · Drupal · WordPress · Django · Spring Boot · React · Next
System Integration:	REST API · Webhook · Cron · ESB2 · Connector · MCP
Systems & Databases:	Linux · MySQL · MariaDB · Docker
Tools & Workflows:	Git · GitHub · GitLab · CI/CD · Jira · Agile/Scrum · Code Review · Jest/Vitest
Computer Networking:	LAN/WAN · TCP/IP · Subnetting · VLAN · Trunk · DNS · DHCP
OS & Troubleshooting:	Windows · Linux · IP/Network Configuration · Account & Permission Management · ipconfig · ping · tracert · nslookup · System Monitoring · User Support (Helpdesk)
Infrastructure Tools:	Wireshark · Cisco Packet Tracer · VMware

CERTIFICATIONS

TOEIC – Test of English for International Communication 01/2025 – 01/2027
IIG Vietnam — Score: 510/990

DELF B1 – French Language Diploma 10/2022
France Éducation international (French Ministry of Education) — Level B1 according to the Common European Framework of Reference for Languages (CEFR)

LANGUAGES

English Advanced (TOEIC 510/990)
French Basic (DELF B1)

VOLUNTEERING

Volunteer — The University of Da Nang Student Summer Volunteer Campaign 2022 07/2022
Actively participated and contributed to the campaign; awarded a Certificate of Recognition by the Youth Union of The University of Da Nang (07/2022).
